Step inside the intimate Prince of Wales and enter a sophisticated and refined oasis of Victorian elegance filled with 21st century comforts. One of Ontario's finest hotels and one of world's finest heritage hotels, Prince of Wales offers charm, elegance, and romance in a unique, intimate setting. Here, Old World sophistication blooms in carefully considered details such as fine English china in the Drawing Room, an original antique mantel in Secret Garden Spa, and a magnificent wine cellar.

Built in 1864, Prince of Wales is the heart of historic Niagara-on-the-Lake. Known by several different names in its history—Long's Hotel, The Arcade Hotel, and The Niagara House—it was named Prince of Wales in honour of a royal visit in 1901, when the future George V and Queen Mary were guests.

At Prince of Wales, each room is a unique and intimate hideaway—a private refuge from the modern world. Each of the 110 guestrooms is individually designed and furnished in the authentic style of the Victorian age; no two experiences are exactly alike. Every room features elegant antiques, exquisite traditional brocades and tapestries, crisp 300 thread count linens and plush duvets. Spacious bathrooms have marble and ceramic fixtures, many of them with delicately stenciled designs. Individual touches make every visit a delight, from a complimentary bowl of fresh fruit, to a plush bathrobe and heated towel to slip into after enjoying a luxurious bath. Many rooms offer king-size beds and gas fireplaces for an experience so decadent that guests may not want to leave.

At Escabèche, the hotel's flagship restaurant, dynamic seasonal menus are sure to stimulate and satisfy the most discerning palates. Sommelier Fred Gamula guides guests through a collection of wine thoughtfully selected from the most prestigious vineyards in the Niagara Region and around the world. Less formal dining is available in Churchill Lounge, which features a menu of sandwiches, pastas, or classic English fish and chips. An authentic English high tea is served in The Drawing Room. After dinner, guests can find a calèche right outside the door and enjoy a romantic carriage ride through the village.

Secret Garden Spa is an oasis of serenity with the natural influences of earth, fire and water. Guests can immerse themselves in this secret world, and be pampered with tea-infused treatments, aesthetics, healing reflexology, and the ancient art of aromatherapy. The saltwater swimming pool, manicure and pedicure salon and 4 treatment rooms make every visit a journey of discovery.

The Prince of Wales is a non-smoking hotel. Pet-friendly rooms are available.

Queen's Landing is a grand Georgian-style mansion with elegant decor, attentive service, and a breathtaking waterfront setting. Located at the meeting point of the Niagara River and Lake Ontario, it is an ideal location for a romantic leisure getaway or a successful business meeting.

Built in 1990, Queen's Landing was erected on the site of the Old Niagara Harbour and Dock Company, incorporated in 1831. Its architecture reflects the Georgian Era, a very significant period in the development of Upper Canada. The exterior features Venetian windows, heavy pediments with mouldings, and large columns. The interior is flooded with natural light, which pours in through floor-to-ceiling windows. A sweeping staircase invites an entrance worthy of Scarlett O'Hara. Marble floors and stained glass accents define Queen's Landing as a mansion with style.

Queen's Landing offers 142 bright, spacious rooms and suites. The hotel's waterfront setting is highlighted through the nautically-influenced contemporary furnishings, fabrics and colours. Recently redecorated, each room features plush hypoallergenic duvets, two-inch mattress pads and 300 thread count sheets. More than half of the rooms feature a jetted tub, a fireplace, or both. Added touches: a luxurious bathrobe to slip into and a comfortable couch to curl up on make guests feel right at home.

Queen's Landing provides a full range of executive-quality meeting facilities ranging from a magnificent Grand Georgian Ballroom, to more than a dozen smaller rooms for breakout sessions and more intimate gatherings.

In Tiara Restaurant, guests enjoy a panoramic view of historic Niagara-on-the-Lake Harbour or dine alfresco on a waterfront patio. Chef de Cuisine Chris Smythe delights all with the best of Canadian cuisine featuring the finest ingredients from Niagara and around the world. Meals are complemented with award-winning wines from the Niagara Region and vintages from around the world. Casual dining is available in Bacchus Lounge.

A fully equipped fitness centre is available on site, with an indoor saltwater pool, hot tub, sauna, and exercise room.

Queen's Landing is a non-smoking hotel with a limited number of smoking guestrooms available.

Pillar and Post is a charming country inn with a past intimately connected to Niagara-on-the-Lake's agricultural history. The hotel has a relaxed elegance, highlighted by an abundance of fresh flowers, sunshine streaming in through skylights, and beautiful terra cotta tile floors. An ideal location for a family vacation or business meeting, Pillar and Post is Ontario's only five-star country inn.

Pillar and Post was originally a canning factory known as Factory 13 in the late 1890s. For over 20 years, Factory 13 was regarded as one of the foremost producers of quality peaches and tomatoes in the Niagara Region. In 1914, the upper floor became a supply storeroom for several hundred Polish soldiers being trained in Canada. In 1957, Factory 13 ended its 60-year reign as a cannery and was reopened as a basket manufacturer until 1970 when it was converted into a restaurant and craft centre. In 1972, it was lovingly transformed into a fine hotel. Its original purpose is evoked in the clean lines of the brick walls and in the post-and-beam construction.

Recently redesigned, the 122 guestrooms are filled with comfortable contemporary furnishings and luxurious amenities. A range of room styles is available, starting from a traditional room with either a queen- or king-size bed, through to deluxe and premium rooms, which feature king-size four-poster beds, jetted tubs, and gas fireplaces. All have plush hypoallergenic duvets, two-inch mattress pads, and 300-thread-count sheets, plus many small touches that provide the unique feeling of a fine country inn. Above all, these are rooms to relax in: guests can slip into a plush bathrobe, curl up on a comfortable couch in the sitting area, order room service, draw a luxurious bath, and spend the day indulging in the peace and quiet of a private hideaway.

Pillar and Post's 100 Fountain Spa offers guests an escape to relaxation and tranquility. Following a recent renovation of the original 10,000 square foot spa to an enhanced and expanded 13,000 square foot spa, a stunning reception area now greets visitors in an environment that seamlessly blends classic and contemporary luxury. An expert team is able to offer an even wider selection of services to soothe both body and soul. Treatments include signature vinotherapy, hydrotherapy rain shower experiences, hot stone massage, rejuvenating facials and reflexology as well as access to a heated saltwater pool, hot springs, and fitness centre.

Chef Randy Dupuis welcomes diners to Cannery Restaurant with a menu of classic favourites composed from the freshest locally grown ingredients. Casual diners can design their own pizza and pasta and sample the award-winning Niagara wines in the Vintages Wine Bar and Lounge.

Pillar and Post welcomes families with children, and provides babysitting services upon request. Families will especially enjoy the indoor and outdoor swimming pools and patio.

The remarkable beauty of a woodland setting surrounded by serene waters and rolling hills is the hallmark of the Millcroft. An award-winning property for accommodations, dining and spa, the 52-room Millcroft Inn & Spa was adopted into the Vintage Hotels family in late 2008. At less than an hour's drive northwest of Toronto, the Millcroft is an ideal country retreat for those seeking respite from the stress of their busy lives.

The main stone building of today's Millcroft was first known as The Alton Knitting Mill. Originally built in 1881 the mill harnessed the power of adjacent Shaw's Creek to produce yarn and blankets in the days before central heating. Later challenges of a dam break along Shaw's Creek in 1889 and a fire in 1917 led to the reconstruction of the Main Mill which allowed it to operate as a knitting mill until 1965. After it was sold, the property caught the attention of tourism developers who recognized the allure of this rugged stone mill set amidst untouched forests and meadows.

Today a 100 acre landscape includes Millcroft's three guestroom buildings, spa and conference centre. The historic Main Mill contains Headwaters Restaurant and terrace, lounge, banquet room and 22 beautiful guestrooms, many of which overlook the Millpond and shimmering Shaw's Creek Falls. Each guestroom is accented with a mixture of European and Canadian antiques. The Manor House (circa 1883) was originally the family residence for Mr. Benjamin Ward, founder of the Alton Knitting Mill, and today houses 10 spacious guestrooms featuring antique furnishings.

Twenty Croft Units are just a short walk from the Main Mill and feature contemporary and rustic decor in a two-storey chalet with wood-burning fireplace, some with private outdoor hot tubs. The Crofts are conveniently located next to the Millcroft Spa. No matter which building guests stay in, they are guaranteed comfortable accommodations, impeccable service, and a breathtaking view.

Spa goers have delighted in the Millcroft Spa, Centre for Well-Being since this 9,000 sq. ft. spa opened in 2005. Offering a complete range of professional spa services, the spa has also developed an impressive selection of unique signature treatments and therapies, available in its 17 treatment areas. Featuring delectable Spa cuisine in the Café and Woodlands Lounge, a bright, open area with fireplace, outdoor terrace and impressive view of the forest, guests of the Millcroft Spa can literally spend the day in relaxation mode. After a roster of healing treatments, they leave with rejuvenated bodies, minds and souls.

A passion for pleasing the senses extends from the Spa into the Restaurant at the Millcroft. Chef Jill St. Amour showcases her culinary skill and artistry by creating the finest and freshest selections. From a continental country breakfast to savoury lunches to sumptuous dinners daily, a dining experience in "the pod" overlooking the rushing falls of Shaw's Creek is simply not to be missed.

Millcroft Inn & Spa is non-smoking facility for guestrooms, spa and function space. As rooms with only one bed are offered, Millcroft makes an ideal getaway for couples, friends and groups.
